

THE IN-SCHOOL DENTIST IS COMING!

March 22nd, 2018

Our school has partnered with Smile Programs, the in-school dentist, to bring important dental care to our students. It's an easy and convenient way for your child to get quality dental care, and most insurance covers 100% of preventive treatment.

Dental Disease Is Preventable

We are providing this service because taking care of your child's teeth is important to keeping them healthy and in school learning. Tooth decay is the most common chronic and infectious disease among children. In addition, kids with oral disease can suffer with pain and difficulty eating. Nearly all dental diseases are preventable through regular dental exams.

The dental team will set up a mini-dental office in our building and provide dental services for all children who return completed forms.

Smile Programs has been servicing schools, and creating healthy smiles, for over 15 years.

Keep in mind:

- All children are eligible (12 months-18yrs old)
- No charge to school or parents
- No child turned away based on ability to pay
- Charity care is offered to children in need

PLEASE BE SURE TO COMPLETE, SIGN AND RETURN THE DENTAL PERMISSION FORM TODAY!
