

The Power of Drawing!

classes

for kids

at St. Valentine Catholic School

We start off our spring session with a unique “composition in flight,” rendering a hummingbird with all of its vibrant color. Then we zoom into our study of “action” learning how to construct a racing motorcycle and a boat as it races across the water. Back to nature, we’ll create the organic shapes and forms that depict the magical life cycle of a butterfly! Artists will learn the foundational elements and skills used to render a realistic portrait of the famous composer, Beethoven. Colored pencil techniques will be used to create value and dimension in relationship to facial expression. Drawing develops and enhances valuable visual skills that have benefits for life. Come have some fun while training the brain to “see”!

Classes held for grades K-6

Wednesdays

3:40 - 4:40 pm

4/25/2018 - 5/30/2018

\$72

for a 6-week session

Enroll online at: www.youngrembrandts.com/annarbor-nwetroit

All personal absences will be forfeited. | No refunds once classes have begun.

Schedules may be subject to change after this flier has gone to print; please check the registration website.
